

Dear Ride For Your Life™ Supporter:

I would like to personally thank you for your interest and effort to support our mission to raise funds for cancer survivors. Cancer is an insidious disease that affects over 10 million people annually. We plan to help people improve their health through physical activities and smoking cessation programs. We can only do this with your help.

That being said, I am taking on a challenge to ride 5000 miles in 50 days in 50 states to raise awareness and funds to empower cancer survivors and individuals, families and communities affected by cancer to live a healthy lifestyle. I used to smoke and now I run ultra marathons, marathons, and 100 mile bike rides. I will attest that habits can be changed. When I lost my mom to cancer, I realized you only get one life to live and your health habits can affect others. Let's make it the best quality life possible for ourselves and those around us!

I need your help to empower individuals to take responsibility for their own health; your choices can affect others.

I have committed to this challenge- Will you?
